

THE LATEST TECHNOLOGY NOW AT YOUR SERVICE

A key part of our philosophy is to provide you with the latest technology of the market. We have recently added a new scanner to our portfolio: the Go!SCAN SPARK™ from Creaform. This new device has four times better resolution, is three times faster, and is two times more accurate. All of it will allow us to provide you a faster and cost-effective service.

3D SCANNING

At Adonis3D, we have the know-how to help you pick the right scanner for the right job. Whether you are in the office, or on the job site, 3D scanning is an amazing way to accurately and affordably streamline your workflow.

3D PRINTING

The 3D printers at Adonis 3D generate concept models, precision and functional prototypes, master patterns, and molds for tooling and real end-use parts. They can be used to optimize designs, streamline work flows, and bring innovative products to the market faster.

ARCHITECTURAL PATTERNS

At Adonis 3D we have the ability to create patterns with rubber molds, MDF patterns on a 5 Axis CNC, or foam patterns with hardcoated finish.
