

## THE LATEST TECHNOLOGY NOW AT YOUR SERVICE

We have recently added a new scanner to our portfolio: the Go!SCAN SPARK™ from Creaform. With this new device now we give you:

- Four times better resolution
- Three times faster scanning
- Two times more accurate

Adonis 3D continues to provide the highest quality 3D Scanning and Milling services since 2009. Our company has kept up with the fast-changing technology in the industry as it has evolved in 3D Scanning, 3D Printing, and CNC Milling services.

We have expertise working with new construction, renovation, historic preservation, and building inspection projects. Some examples include the creation of architectural details, sand cast patterns, reproduction of historical moldings and columns, lettering, signage, balusters, capitals, keystones, parapet caps, corporate logos, prototypes, and sculptural elements.

## 3D SCANNING

At Adonis3D, we have the know-how to help you pick the right scanner for the right job. Whether you are in the office, or on the job site, 3D scanning is an amazing way to accurately and affordably streamline your workflow.

## 3D PRINTING

The 3D printers at Adonis 3D generate concept models, precision and functional prototypes, master patterns, and molds for tooling and real end-use parts. They can be used to optimize designs, streamline work flows, and bring innovative products to the market faster.

## 5 AXIS CNC

## ONE STOP SHOP

One of the advantages we have over our competition is that you can find all the services you need -from 3D Scanning, CNC Milling or 3D Printing- under one roof. Adonis 3D has all the resources in-house necessary to make your project a reality.

## 35 YEARS OF EXPERIENCE

As part of the Adonis Bronze group, with over 35 years in the art business, we know that attention to detail is a must. With our State-of-the-Art scanners, we can ensure that the digital model will capture the true spirit of your creation.
